Coin set for children 2018

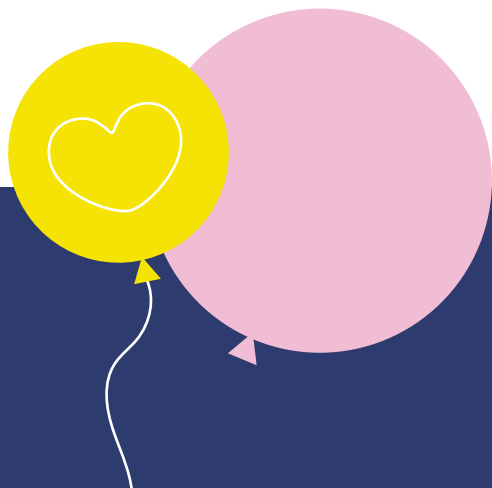

The children's coin set unfolds like a picture book and tells the story about Teddy Bear and his family. Teddy Bear has been the central figure in the children's coin set since 2015.

This year, Teddy Bear and his happy family celebrate their new family member with balloons, stars and gold-coloured fireworks.

The coin set comprises Denmark's coin series, i.e. 50-øre, 1-, 2-, 5-, 10- and 20-kroner coins minted in 2018.

The coin set is a great gift idea for the celebration of a new baby, a birthday or as a keepsake gift.

The presentation folder is illustrated by senior graphic designer Jeanette Skov Jensen, Danmarks Nationalbank.

Buy the coin set in the webshop, by telephone or in Danmarks Nationalbank.
